Social Media: Do You Know What App Your Child Is On?

Did You Know? Nearly all youth and a majority of adults use social media. In 2012, 90% of 13- to 17-year-olds reported using some form of social media. 80% of teens sleep with their phone and get less than 8 hours of sleep per night. This academy will present the impact social media plays in your student's life. We'll explore the various websites that students' access each day as well as some of the pitfalls that may occur when our children are not aware of how to navigate these sites. The internet and technology should be a positive experience for our young people. Unfortunately, our young people can use it in a negative way too. The internet is no longer a safe and enjoyable place for them and instead may become a source of anxiety and fear. We'll explore the various websites that students' access each day as well as some of the pitfalls that may occur when our children are not aware of how to navigate these sites.

In order to assure your attendance for the evening as well as to assist the Department of Supplemental Services in planning and materials preparation, **please complete the RSVP Form below and return to Krista Cortez in Supplemental Services by Thursday, May 14, 2019**. You will receive an email and call for reminder and confirmation prior to the event.
